SUZOHAPP WITH NEW SOLUTIONS AT INDIAN GAMING SHOW

Anticipation is in the air for the upcoming edition of the Indian Gaming Tradeshow & Convention that will take place between 10th and 13th April in San Diego, USA. Entering its 32nd year, this tradeshow has established itself as the premier event for the Indian Gaming industry. SUZOHAPP will be exhibiting here at booth 819 to show operators how they can increase player satisfaction.

One of the biggest highlights will be the Interactive Player Table (IPT). This dynamic 42" LCD table with 1, 2 or 4 screen interface configurations offers a multitude of uses. Casinos can place their own advertising on it or use it as an additional advertising income stream when providing third party information.

SUZOHAPP will be also showing how the IPT can be used to display gambling games from Respin. It provides a mobile gambling APP that can be displayed on the IPT, allowing Native American casinos to generate a new form of revenue.

At SUZOHAPP booth, visitors will discover the new Opt-Win solution from Optec. This is a new type of casino signage made from LED arrays that can be seen at up to 300 feet away.

As global partner for TransAct, SUZOHAPP will be exhibiting a wide array of printer solutions, including the latest Edge printer and the successful Epicentral system that enables operators to make full use of the printer information.

Finally, visitors will have the opportunity to learn more about the variety of SUZOHAPP components, solutions and spare parts, including the Picture Key Technology (PKT) button panel. This single-panel system can feature a variety of button configurations that displays any content from underneath the surface on the glass push buttons.

"We have many highlights to present this year, so we invite all visitors to join us at booth 819. It is a pleasure to be so closely linked with Native American gaming. Our new solutions are ideal for Indian casinos and we are well prepared to ensure that our customers will make the most of these", explained Ron Partridge, *President - Americas at SUZOHAPP*.
