

## **BMM Testlabs Enters its 5th Decade of Gaming Lab Leadership at G2E 2022**

*Martin Storm, Executive Chairman & CEO*

BMM Testlabs, the world's original gaming test lab, inspection body, and product certification consultancy, is pleased to announce that it will be exhibiting at the Global Gaming Expo (G2E) at the Venetian Expo in Las Vegas in October 2022.

Martin Storm, Executive Chairman & CEO at BMM Testlabs, commented, "As we enter our fifth decade of gaming lab operations BMM continues to outperform with year-on-year record growth rates. We have emerged from the COVID-19 pandemic stronger than ever and continue to advance our share of business in both the sports betting and iGaming sectors, as well as land-based product certifications."

Storm continued, "For more than 20 years, BMM's participation at G2E has been about establishing meaningful connections, building great relationships, and identifying cutting-edge technologies within the gaming industry. We expect to continue supporting our customers in navigating the complex regulatory landscape of any gaming region, while providing the most cost-efficient testing and certification services available. Our customers and partners can rest

assured they are in the very best hands with our exceptional teams around the world. BMM is proud to test and certify any gaming product in every gaming market.”

Storm concluded, “I wish to thank our staff and customers for BMM’s continued growth. We only exist to serve our customers and the industry, so we thank them for that privilege and for choosing BMM more than ever. We work very hard every day to earn that privilege.”

BMM Testlabs will have global and regional staff on hand throughout G2E to provide support and advice to both new and existing clients as well as to meet new suppliers. BMM provides the world’s leading gaming testing and certification services across a range of key business segments, including:

- Sports Wagering
- iGaming
- Games Testing
- Casino Management Systems
- Lottery Services
- Field Services
- Inspections
- Quality Assurance
- Cyber Defense
- Education & Training
- Professional Consulting Services & More

BMM Testlabs will be joined at G2E 2022 by the BMM Innovation Group (“BIG”), which provides support in the key areas of cybersecurity and responsible gaming education through its cyber defense company BIG Cyber and virtual training company RG24seven.
