JCM Digital Signage Solutions Put the Wow in Every Visit

A silver dragon that flies around the VIP room entrance in Washington. A magical animal laden forest that surrounds all sides of an indoor walkway in Oklahoma. An amazing digital fireworks show that lights up the casino ceiling in Michigan. These are just a few ways casinos across North America have enhanced their guests' experience with custom **Digital Signage Solutions (DSS)** from JCM Global® (JCM).

From sports bars to hotel lobbies, we have a variety of solutions to delight and entertain your casino guests with stunning color fidelity, high contrast ratios, and wider viewing angles.

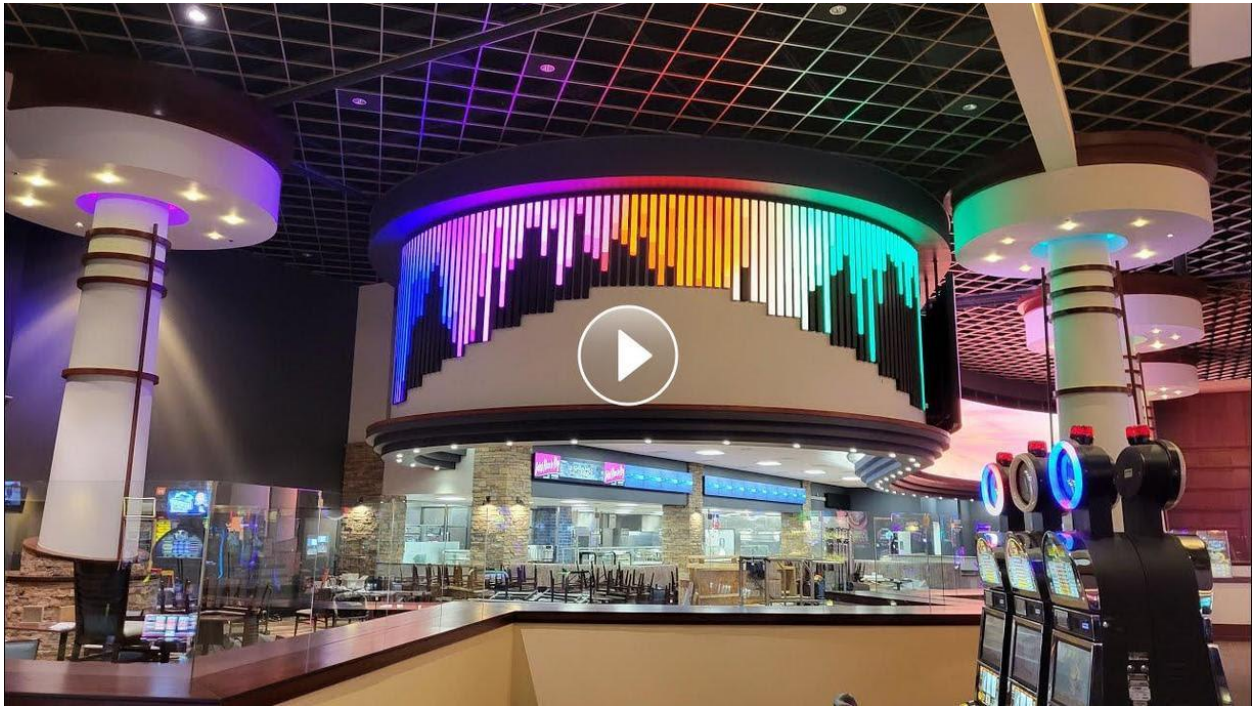

A Blank Canvas

High-def, modular, and flexible, our digital signage can transform any casino space in ways that are only limited by your imagination. JCM's DSS allows you to communicate to guests about special offers, keep fans cheering by broadcasting sporting events, or create exciting experiences and environments with unique architectural signage. Stop by our booth #4039 at G2E and experience our broad range of options on display, including **DSS**, **FLEX™**, **CUBE™**, and **VB-DIAMOND™**.
