

Uplatform to showcase product lineup, team up with Sumsb to host a party at ICE London 2024

BIG Cyber, a BMM Innovation Group company dedicated to providing robust cybersecurity solutions, announced its participation in the upcoming ICE London tradeshow February 6-8. Attendees and exhibitors are encouraged to visit BIG Cyber’s team of cybersecurity experts in stand N3-520.

BIG Cyber Chief Executive Officer, Amit Sharma said, “As the gaming industry evolves, BIG Cyber remains at the forefront of innovation, offering services to address the complex cybersecurity challenges facing the gaming industry. Our goal at ICE is to shine a spotlight on BIG Cyber’s innovative cybersecurity solutions tailored for the global gaming industry. This dynamic exhibition allows us to connect, share insights, and demonstrate how our tailored, end-to-end cybersecurity services and solutions protect and defend gaming enterprises globally.”

BIG Cyber’s expert team is prepared to engage in conversations that go beyond the surface at ICE London. As a cybersecurity solutions partner, BIG Cyber is a proactive force in mitigating risks and ensuring comprehensive protection for gaming assets, as well as protection for company, player, and employee data. Attendees are encouraged to visit stand N3-520 to discuss tailored solutions including comprehensive risk and threat assessments, staff training programs, and the assurance of a Strategic Monitoring and Real-Time (SMART) 24/7/365 managed Security Operations Center (SOC) service backed with Artificial Intelligence and Machine Learning technology.
