

Konami Gaming Launches Winning Casino Entertainment and Technology at G2E Las Vegas

Leading casino games and systems provider expands upon proven entertainment

Las Vegas, NV— September 15, 2021

Konami Gaming, Inc. announced a competitive lineup of premium slot entertainment, core game releases, and casino systems technology premiering at the Global Gaming Expo (G2E) in Las Vegas on October 5 – 7, 2021. From fresh DIMENSION cabinet formats to new SYNKROS® features, Konami is focused on adding greater value to proven successful innovations, to drive reliable gains within the industry. Gaming executives and professionals at this year's event can see award-winning [SYNKROS](#) features such as SYNK31™ Title 31 / Anti-Money Laundering (AML) and technology such as cashless wagering and TITO support at games; cardless login by player phone number, QR code, and/or Near Field Communication (NFC); new Konetic™ employee mobile features such as Jackpot processing, and more. And building upon the success of its award-winning [DIMENSION](#) slot cabinet series, Konami is marking the G2E debut of its top popular DIMENSION 49™ portrait cabinet, DIMENSION 27™ stacked screen cabinet, and additional, never-before-seen premium machines.

“Konami is delivering winning developments to the casino floor in the immediate months and years ahead, in an effort to achieve meaningful gains for operators and continuous advancement for our industry as a whole,” said Tom Jingoli, executive vice president & chief operating officer at Konami Gaming, Inc. “From expanded SYNKROS contactless technology to new DIMENSION premium formats, Konami is adding even greater value to what is proven successful in the space.”

New DIMENSION cabinets are arriving at G2E Las Vegas for the first time—all of which include the same sheen silver finish, relaxed slant top, dual spin buttons, dual cupholders, and wired and wireless phone chargers featured in the original award-winning DIMENSION 49J™. Ranked the industry's highest indexing portrait cabinet for four consecutive months, [DIMENSION 49](#) is a for-sale, flat-screen version of the J-curve machine and it is featured at G2E 2021 with new brand extensions on Konami's popular series like Treasure Ball™. Konami's new [DIMENSION 27](#) with three, stacked 27-inch screens is also making its G2E premiere with original linked series such as Panda Power™. Additionally, Konami is unveiling a new premium cabinet format, with its own unique content library.

“Our expanded line of DIMENSION cabinets has helped launch some of the industry's most popular new slots,” said Jingoli. “With series such as Treasure Ball Duo Luck, Panda Power, Celestial Riches Eclipse, Bull Blitz, and more soon to be added, we've only just begun exploring the DIMENSION line's potential.”

Similar to Konami's popular All Aboard™, Bull Blitz™ is arriving to G2E Las Vegas following demonstrated success in the Australian market. The slot series is featured on [DIMENSION 49J](#) during G2E 2021, along with Lucky Envelope™—an entirely new premium linked progressive inspired by the gift giving tradition common in Chinese culture. In addition, a new premium licensed series premieres at Konami's 2021 exhibit with the G2E debut of BattleBots slots, based on the popular robot combat sport and reality TV show broadcast in over 150 countries. The world's first BattleBots themed slots are displayed throughout the show on DIMENSION 49J with custom sign display options.

“Last G2E, DIMENSION 49J was voted one of the industry's most anticipated new cabinets. The machine has clearly delivered on the excitement with hit games like All Aboard and Ocean Spin, and now we're taking it even further with BattleBots, Bull Blitz, Lucky Envelope, and more,” said Jingoli.

Konami's SYNKROS casino management system team is hosting live demonstrations throughout the G2E 2021 event, showing new tools, features, and product features aimed at cashless, cardless, player convenience, and other improvements to the overall player experience. New and current SYNKROS customers have access to a wave of releases like new table games cashless wagering, login by phone number, built-in VIP host, multi-site exclusion management, and more. They can also tap through Konami's newest mobile technology for its Konetic employee mobile app.

"For years, Konami's SYNKROS cashless technology has proven success in locations around the globe, and it continues to grow and advance in some of the world's most competitive gaming markets," said Jingoli. "That combined with an array of other operator-configurable player conveniences are empowering SYNKROS customers to exceed expectations in truly exciting ways."

Attendees are encouraged to visit booth #1256 at the Sands Expo & Convention Center on October 5 - 7, 2021 to explore these and more Konami releases. For more information about Konami Gaming, Inc., please visit www.konamigaming.com.
