More than 6,000 casino executives and tribal leaders arrived to this year's event with the opportunity to see and interact with a record variety of bonus game entertainment available across every game cabinet—including the latest large-format Concerto™ Opus™ with 65" display. Konami's SYNKROS® casino management system connected the both as a comprehensive demo environment throughout the show, with advancements spanning True-Time Windowing™, SYNKROS Dashboards™, and more.

POWER BOOST INFERNO™

Concerto upright & Slant

Power Boost Inferno™ is among Konami's newest original linked progressive games and is launching for availability across Indian Country. Players increase their odds for the Supreme jackpot up to 10x through selected extra credit bet contributions. When the mystery-trigger feature is awarded, a wheel with 3 levels of increasing prizes emerges from a lava inferno. According to bet level, players have a number of assigned pointers that spin around the wheel. With each spin, every pointer will land on a credit prize, progressive prize, or level up to the next level. The bonus continues until all pointers have claimed a prize, with the linked Supreme jackpot as the center top available award.

MONEY GALAXY™

Concerto upright & Slant

One of the most exciting new additions to Konami's Concerto game library is a symbol-driven linked progressive game called Money Galaxy™. with original math and mechanics—but share the same Money Galaxy progressive feature.

Throughout primary play, any 3 or more bonus prize symbols appearing with a wild symbol on reel 5 trigger the Money Galaxy feature. As it transitions to the feature, those positions become fixed while the remaining positions transform to independently-spinning reels filled with bonus prize amounts, progressives, and blank spaces. Players are awarded 3 spins on the bonus reel frame and if all positions are filled with prizes, they advance to a new round and increasing potential progressive awards, up to the ultimate linked Maxi jackpot.

Radiant Witch™

This 5-reel game has an enchanting hazel-eyed mystic as its hero character. She acts as the reel 5 trigger symbol during the Money Galaxy Feature and helps provide travel through the feature by resetting the available spins with her magic orb. During the free games, Radiant Witch removes all lower-value card symbols, leaving only high-value picture symbols and prize symbols, with a greater chance at the Money Galaxy Feature.

Dragon's Return™

Players with a thirst for excitement can champion the hero's journey in Dragon's Return. When the fire-breathing dragon appears on reel 5 with at least 3 prize symbols, the Money Galaxy feature is awarded. The Dragon helps clear the path ahead by igniting additional free spins when at least 1 prize symbol lands. During the free games, additional Dragon trigger symbols are added to the reels for higher odds at hitting the Money Galaxy Feature.

Pharaoh's Power™

Fans of Konami's popular Chili Chili Fire™ will want to keep an eye out for Pharaoh's Power! This game includes a Fade Away Feature™ during the free games that randomly eliminates lower-value card symbols, leaving only high-value picture symbols and prize symbols. The Pharaoh's powerful gaze helps signal the feature as his eyes alight across the screen and crumble the lower symbols to pieces! During the Money Galaxy feature, he helps guide players to additional wins by resetting the available spins with a strike from the growing red amulet upon his royal headdress.

These crazy cats are coming to Concerto Crescent™ with a host of fun features for players to discover. This symbol-driven linked progressive series has a 5-reel base game and free game feature. During the free games, reel 3 is filled entirely with Diamond, Cat, and BONUS symbols.

In a dramatic lead-up to the free spin, the player advances to 3 different 'select a card' features where the comical kitty pirates help level-up the available awards. If every reel position is filled at the end of the free spin, 3 treasure chests appear with a chance to pick the linked Maxi jackpot, the standalone Mega jackpot, or a 5x multiplier.

Concerto upright & Slant

Konami's new Magician's Charm™ linked progressive made its world debut at NIGA 2018. This 4-level progressive includes multi-denom options and a higher jackpot chance at higher bet levels. Randomly throughout primary game play, the Magician's Charm feature can occur. A velvet curtain swings open to reveal 12 magician hat symbols.
