Introduction

If there is one word to describe G2E 2022 it would be innovation.

While this may sound cliché when describing one of the largest tradeshows in an industry that depends on the continued evolution of games and products, it is true. Companies are putting their “money where their mouth is,” to use another cliché, with investments in the latest technology and acquisitions of content studios.

This will be on full display at G2E, not only for traditional slot game content, but for hardware, tables, virtual sports, systems and payments.

What we now call cross-platform gaming will be apparent across the tradeshow floor, taking content and technology that was once only available on traditional slot floors and bringing it to iGaming, sports betting and even growing segments of historical horse racing and distributed gaming as companies look to grow brand loyalty in the ever-expanding world of gaming.

Historical Horse Racing and distributed gaming are taking up larger footprints of the tradeshow floor than ever before, which is appropriate given the continued expansion of both of those segments.

A theme from the last several G2Es is “cashless” and this year’s show appears to be the precipice of wider acceptance from the casino industry on traditional gaming floors in the wake of long-term COVID protocols with the latest innovations in this realm taking center stage.

Sports betting and iGaming, once small and future products for traditional, major suppliers, are now full-fledged segments with dedicated space and teams to showcase the latest products in the growing US market.

Lastly, the post-COVID world has made another trend at G2E apparent – most of what will be showcased will be on casino floors by mid-2023. This appears to largely to be an effort to help operators budget replacement cycles on a shorter timeline.

Fantini Research is also back at G2E, and while much of the content will be the same, it is a different company than it was in 2021.

During the first week of 2022, Fantini Research was acquired by long-time partner Eilers & Krejčík Gaming, with which it co-produces the EILERS-FANTINI Slot Survey, EILERS-FANTINI Game Performance Database and other associated reports.

Founder and Publisher Emeritus Frank Fantini will once again conduct our CEO One-On-One interviews in which the industry’s leaders discuss trends, plans for their companies, and their must-see products.

Also returning will be our product demo videos in which we highlight for you many of those must-see products and show you how they work.

Continued on Next Page

Of course, all of what we produce comes at a cost, and we thank our sponsors who make our productions possible, starting with Global Presenting Sponsor GLL.

Joining for the first time as the sponsor of this Pre-G2E Guide and the G2E At-Booth Product Demos is Agilysys. IGT and Ainsworth have also returned as major sponsors, and they, with the rest of our supporters are highlighted on the following page. And this year we have a new type of sponsorship, Advantage Sponsors that include Inspired, Interblock and Catena Media.

The Pre-G2E Guide is designed to help you plan your visit to the show and serve as an overview of each company's exhibit with major themes and trends.

We look forward to seeing you there.

In its first G2E as an exhibitor, Acres Manufacturing will showcase Cashless Casino, which is powered by its Acres Foundation technology.

This is the industry's only solution capable of processing both real-time gaming data and conducting cashless transfers to and from any slot machine or table game, the company said.

Acres' efforts to innovate solutions that enable a more intuitive adoption of cashless gaming technology will help set the stage for the option of a completely cashless casino gaming floor within a few years which will eliminate cash handling expenses and drive a better overall player experience, Acres continued.

Early deployments of Foundations' cashless gaming have proven that players increase their play and visitation by more than 20 percent, it said.

Booth#4211

Cashless Casino addresses the challenges of implementing the technology on old casino management systems, with installation happening within about 15 weeks.

Casino operators are increasingly expressing wide-scale interest in deploying cashless gaming technology. However, implementing cashless gaming quickly becomes a burdensome, do-it-yourself project for operators, Acres said.

Cashless Casino works on any slot machine or table game, including those connected to casino management systems from Aristocrat, IGT, Konami and Light & Wonder.

These legacy casino management solutions continue to account for play and loyalty data, while Foundation processes the entire machine event stream in real-time, resulting in over a thousand times more data being provided to the casino.

Must-See Products

1. ***Cashless Casino***
2. ***Foundation***
3. ***Precision Bonusing***

Over time, casinos can migrate all system functionality to Foundation and remove the existing casino management system without any disruption to their loyalty, reporting or analytics programs, resulting in millions of dollars saved annually in hardware and maintenance fees, Acres said.

Along with the Cashless Casino App, Acres will showcase Precision Bonusing which is an industry-unique solution allowing operators to quickly create custom bonuses and deploy them to any specific slot machine.

Incredibly flexible configuration options and tight integration to the Cashless Casino, Precision Bonusing dramatically enhances player engagement and grows gaming revenues by allowing casinos to create unique, targeted player offers at any time, regardless of the player's physical location, the company said.

Acres will be on site to demo these experiences first hand at Booth 4211.

Booth #1253

G2E for AGS will be an ode to its transformation over the last six years to a company that now offers a diverse range of products from Class II and Class III slots to tables, shufflers and interactive games.

For slots, AGS will have three main areas of focus at G2E:

1. The launch of its first-ever high denomination three-reel video slot Mega Diamond, which is currently out in test locations. Mega Diamond is available on the Orion Curve cabinet in multi-denominations, and while it uses classic symbols, traditional BARs and 7s, can come with sub-symbol multipliers. Flames engulf the screen as players get closer to hot progressive wins to create high anticipation.

2. A new cabinet, Spectra UR43, will debut at G2E. This is an evolution of AGS' Orion Portrait and features a 43 inch ultra HD 4K upright portrait monitor and game-controlled lighting. It will debut with a collection of AGS' games including new titles Triple Coin Treasures and Prize Spin and derivatives of AGS' favorite game families Legends of Imperial 88, Rakin' Bacon! and 888 Tian Lun. The cabinet will be available for Class II, Class III and historical horse racing markets.

SPECTRA UR43

3. An expanded library of premium games on the Starwall and Orion Curve spanning Class II, Class III and historical horse racing. Examples include River Dragons and Rakin' Bacon!

AGS will also showcase its table games and Pax S Shuffler.

Six months into its rollout, AGS said the shuffler is proving to be reliable and fits the form factors operators are looking for in specialty table game pits.

Pax S has features including card recall which is used in the event of dealer errors and cards that get shuffled between hands so there is always a deck in play and a deck ready in the shuffler.

BONUS SPIN XTREME FOR CRAPS

PAX S SHUFFLER

MEGA DIAMOND ON ORION CURVE

For tables, one of the top products on display for AGS will be the latest expansion of its Bonus product line Bonus Spin Xtreme for Craps.

Once all bets are placed, Bonus Spin Xtreme selects a target point from available numbers 4, 5, 6, 8, 9 or 10. If the shooter establishes the target number on the come-out roll and makes that point, the Wheel Spin is triggered.

If a 7 or 11 is rolled on the come-out roll, the wagers remain in place for the next roll. If a 2, 3, or 12 is rolled, or if any point other than the target point is rolled, the wagers lose. Bonus Spin Xtreme for Craps can link to all table games on the casino floor.

AGS' interactive offerings will also be on display, including some new interactive table game content.

In terms of logistics, the booth this year will be slightly larger, with more than 50 slot games on display vs. 34 last year.

Must-See Products

1. ***Spectra UR43***
2. ***Bonus Spin Xtreme for Craps***
3. ***Mega Diamond on Orion Curve***

Booth# 1259A

Ainsworth will showcase a step forward in its game development efforts at G2E.

The company will display nearly 100 products, including new content for the Class III, Class II, Historical Horse Racing and Interactive markets.

Highlighting the exhibit will be a trio of Linked Progressive offerings – Treasure Spirits, Ca\$h Stacks Gold and Ultra Shot. All three series will make their North American debuts after showing strong performance indicators in Australia, the company said.

Each offers a Hold 'n Stack or symbol collection feature, multi-denomination packaging starting at a penny, and improved gameplay experience on the A-STAR Curve cabinet.

The games are the result of significant changes in Ainsworth's research and development approach that includes an overhaul of games' sight, sound, and action.

Last year the company announced the addition of Chief Product Officer David Bollesen, and has subsequently added new game development talent to oversee studios in Sydney and Las Vegas.

GRAND LEGACY ON A-STAR DUAL

Ainsworth will also display new content for its premium A-STAR Curve XL hardware such as Cash Attack, a three-reel persistent state title and Dollar King, a series built around the recognizable Ainsworth High-Denom content.

Visitors will also be able to explore new and legacy games built for the A-STAR Dual and A-STAR Slant Top hardware.

Ainsworth's dual monitor cabinets target the biggest players on casino floors with top-performing titles such as Thunder Cash and Eagle Bucks, as well as new High Denomination games Grand and Royal Legacy.

TREASURE SPIRITS

CASH ATTACK ON A-STAR CURVE XL

Must-See Products

1. *Treasure Spirits 3-Pack*
2. *Cash Attack on A-STAR CURVE XL*
3. *Grand Legacy on A-STAR DUAL and A-STAR Slant*

ARISTOCRAT GAMING™

Booth #1133

Aristocrat is coming to G2E with the most new content it has ever had. The booth will feature 100 percent never-before-seen for-sale games and 68 percent never-before-seen leased content.

This G2E is the fruits of Aristocrat's investments in content, the company said, and all games showcased are expected to be released in the next six months.

A highlight of the booth will be a section dedicated to its NFL products which includes core slots and some yet-to-be-announced innovations. Aristocrat signed an exclusive global licensed agreement with the NFL earlier this year.

The newest cabinet from Aristocrat, MarsX Flex, will be on full display with the latest iteration of its Buffalo family, Buffalo Strike.

Other examples of Aristocrat's innovation that will be on display are the next evolution of its historical horse racing games, VLTs and for the first-time ever at G2E, its RMG products.

JACKPOT CARNIVAL

This follows the announcement Aristocrat is buying UK-based content supplier Roxor Gaming, which is already live in New Jersey with its iGaming offering. That acquisition is expected to close in the first quarter of next year.

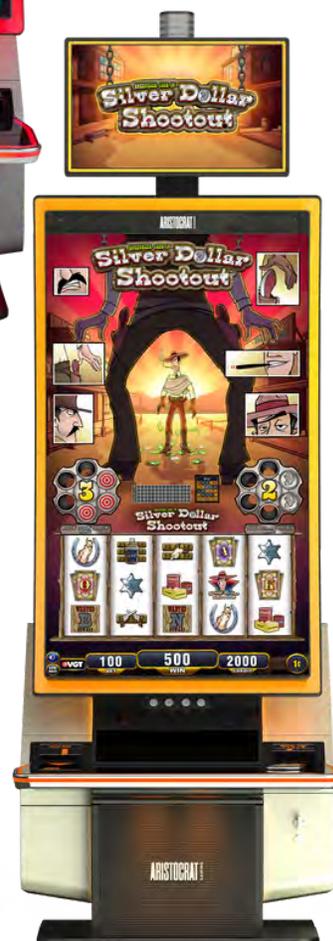

Must-See Products

1. **Jackpot Carnival** is a carnival-themed group of games with player-selectable multi-denominations that includes free-game features such as a hammer smash, clown skeeball, and other carnival themes. Launch base games include Buffalo, Timber Wolf, and Power of 88, a true base game that has stacked reveals.

2. **Cashman Double Bingo on the MarsX Upright.** This game has two bingo cards that doubles players' cash-on-reels chase. Plus, a win on one bingo card does not reset the other, giving players something additional to look forward to, even after a big win.

3. **Silver Dollar Shoot Out Diamond on the Arc Double** cabinet and a Class II version of the hit game Express Luxury Line, which builds on the success of Silver Dollar Shoot Out on the Helix XT and is a premium game with enhanced features and a new, larger cabinet.

CASHMAN DOUBLE BINGO

SILVER DOLLAR SHOOTOUT

Booth #2659

Aruze Gaming says its charging into G2E with promising momentum through 2022 and into 2023 and a theme that is a continuation from the prior year, "Innovation is our Tradition."

Activ-Play™ games, such as its spin on the arcade classic Go Go Claw, allow the player to actively participate and offer instant winnings through classic games.

Activ-Play™ is growing at a rapid pace, with more exciting news to come at G2E, Aruze said.

Go Go Claw uses an arcade-style claw to allow the gambler to try and grab a prize ball. Once the gambler places a bet, the prize is selected and will be no less than four times the initial bet.

The player then tries to maneuver the claw to pick up a cash ball and drop it in the prize box. The game is perceived as skill.

Go Go Claw has three titles: Cash Grab, Gold Bars and Dream Prize. There will be two additional titles announced at the show this year.

GO GO CLAW

On display will also be the Muso Triple-32 cabinet.

The three 32-inch LCD monitors allow for Aruze's exclusive titles to jump off the screen and the honeycomb LED lights create a visual experience that can only be found from the T-32, Aruze said. The cabinet has a new face design and button deck.

A revitalization of Aruze's Shoot to Win Craps will also be at G2E. The game is an immersive experience through interactive play and upgraded visuals.

Beyond the casino floor, Aruze continues to grow its presence in the iGaming sector of which the company now has 24 titles available in New Jersey.

Aruze is actively working on expanding to other states and beyond the US border to Canada, Europe and Asia.

Altogether, Aruze continues to combine innovative and unique ways of engaging players with attractive, state of the art cabinets to create an unparalleled gaming experience, the company said.

G2E is an exciting time for everyone in the gaming industry and Aruze is thrilled to showcase 2022's momentum, as well as some exciting new products at the show.

Must-See Products

2. ***Muso Triple-32 cabinet***
3. ***Go Go Claw***

SHOOT TO WIN CRAPS

MUSO TRIPLE-32

Booth #2844

For AXES, the most important component of G2E is connecting with clients and thanking them for their business, CEO Earle Hall said.

It is also an opportunity to meet and greet partners, friends of AXES, and loyal followers to renew our friendships and find synergies for the coming year, he said.

AXES will also do as many product demos as it is able to educate on the future of the industry.

Looking ahead, AXES says this is the year for Tribal America and the company will enter many tribal markets in the USA. G2E is the official kick-off for this initiative that sees the company welcoming entire USA-based teams for compliance, sales and marketing.

AXES' goal this year is to educate and integrate with its solutions that the company says are safer, cheaper, and higher performing when compared to traditional systems and technology.

BUTLER

Must-See Products

1. **Media Platform.** This platform replaces its current cashless screens with a high resolution, interactive screen that will be used for its entire cashless platform and for its media platform as well. AXES connected this screen to broadcast cashless information (cash in, cash out, card balances, app balances), loyalty and engagement information (rewards, promos and player's club information and activity) as well as being directly linked with major ad platforms to generate revenue for clients with high quality, interactive publicity.

2. **Cashless.** This year AXES will demonstrate a seamless open to closed loop transaction with partners Flexia and Bluberi. Whether it be to create a player's account, link it with a bank account or credit card, transport funds to the machine and around the casino, AXES will show how cashless should be done with a player's card or a player's app, in real-time, the company said.

3. **Loyalty and Engagement.** AXES has had loyalty and engagement since 2011, and now has extended its solution to all its cashless platforms. AXES' marketing campaigns app is now linked to the KashME point of sale platform and its kiosk solution.

In short, AXES' cashless platform and loyalty and engagement platform tracks, rewards, and recognizes players in real-time. There will also be some enhancements that will be surprises for clients revealed during demos at G2E.

kashME

CASHLESS BUNDLE

Booth #2840

Eclipse Gaming Systems, a slot hardware and game content provider exclusively to tribal casinos, will showcase approximately 30 new games at G2E.

With a focus on its theme, Making An Impact, Eclipse will highlight a number of new games and game families, along with its IMPACT™ line of slot cabinets that includes the IMPACT 49™, IMPACT 43™, and IMPACT 27™.

One game family on display will be Cash Arcade™, debuting with The Big Shake Neon™ and The Big Shake Carnival™ (shortlisted for the Global Gaming Awards 'Product Innovation of the Year).

These nostalgic 1980s-themed games offer an innovative arcade-style coin-pusher feature and a perceived skill bonus that challenges and excites players, the company said.

Another showcase will be the Jackpot series, highlighted by Tick Tock Jackpot™, which was shortlisted for the Global Gaming Awards 'Slot of the Year'.

BIG SHAKE NEON

These 5x8 reel games feature the Countdown Pick Bonus, which adds rapid action as players scramble to beat the clock to pick the best symbols and create chain reactions that explode to reveal prizes.

The Hold & Spin bonus and expanding reels give players even more opportunities to win big. Games in this family on display at G2E include Tick Tock Jackpot, Mucho Grande Jackpot™, and Sky High Jackpot™.

Also at the show will be The Spin Big™ family, debuting with Spin Big Gears of Wealth™, Spin Big Galaxy™, and Spin Big Mardi Gras™, which all featuring the Buy-A-Spin Big Wheel Bonus, free games with retriggers, and a pick'em feature.

Operators can bank these games together for a symbiotic play experience as players watch the giant wheel spin to award free games, credit prizes, and multi-level progressives.

Must-See Products

1. ***Jackpot Series***
2. ***Cash Arcade***
3. ***The Spin Big family***

TICK TOCK MUCHO GRANDE JACKPOT

SPIN BIG MARDIS GRAS

EVRiThing.

Everi is using this word as the theme for its showcase at G2E to represent its only position as the only manufacturer that can offer products for all aspects of the casino floor.

Overall, Everi will be exhibiting how it is driving its business forward with innovation and investment in its products in the gaming, FinTech and iGaming segments, the company said.

Products displayed at G2E will include the latest generation of its Digital Neighborhood products like cashless, loyalty and AML, a new cabinet Dynasty Vue, new game content and new products categories like distributed gaming and historical horse racing post acquisition of HHR game developer Intuicode Gaming.

For FinTech, some of the updates on display will be a cage automation tool for slot route operators, self-service kiosk solutions with ecash the Australia-based financial payment provider it recently acquired and an update to the loyalty form factor called Prelude.

Booth #1150

In games, the Player Classic Signature three-reel mechanical cabinet that launched in March will be showcased. The latest Rocky & Bullwinkle game will debut on the Skyline Revolve cabinet, as Everi will continue to beef up both its premium licensed offering and theme bandwidth and brand extensions.

TournEvent and its latest updates like *TournEvent Now* will be showcased. *TournEvent Now* allows operators to offer on-the-fly tournaments with gamblers at the slots they are already playing on and removing the need to reserve specific banks of games for events.

Everything at Everi's booth will be available within the coming months.

Must-See Products

1. **Super Fiesta - Empire Arena™**. Super Fiesta releases with two Mexican style gambler centric base games – Super Fiesta Carnaval De Oro™ and Super Fiesta Gran Noche™. Both games showcase a number of bonuses and ways to win big, including: the pinata bonus that's accompanied by licensed rhythmic dance music, the spin again wheel, and sticky wild respin. .

SUPER FIESTA - EMPIRE ARENA

2. **CashClub Wallet®** is a mobile digital wallet that enables casino operators to offer their guests the option of cashless and contactless funding of electronic game play across the casino floor, using traditional, alternative, and mobile technologies. Integrating and extending cashless payments throughout the gaming enterprise, Everi's digital CashClub Wallet® technology can be used for funding at the gaming device, payments at the point of sale, online to fund sports betting or social gaming, as well as to fund retail, hotel, and food/beverage at checkout.

3. **Dynasty Vue™**. Launching in early 2023, Dynasty Vue™ is unique in that its custom display enables Everi's designers to create game mechanics that one would see on a portrait cabinet, while providing the sight lines comparable to a dual-screen cabinet, and the functionality and integrated base of a slant top cabinet. Dynasty Vue™ will debut with four launch families consisting of seven distinct games including the Combo Cash Series, Money Slam Series, Wild Wheel Series, and Everi's first multi-game product High Rollin' Gems Series.

Booth #4016

Galaxy Gaming is “Creating Table Games for Everyone, Everywhere” and will showcase its wide breadth of content at this year’s G2E.

Galaxy will have the most new content it has ever had and new technologies aimed at bringing its content to different channels. That includes the in-house production of some of Galaxy’s own digital games, supplementing the company’s continued licensing of its IP to partners.

Those in-house games will be launching by late third quarter or early fourth quarter.

3 Dice Baccarat offers three different versions of playing baccarat, with a dice shaker, automatic dice shaker or random number generated. The game eliminates the need for cards, saving costs for operators that pay up to \$100 per day for baccarat cards.

Split to Double Blackjack will also be present, which Galaxy calls the highest action blackjack in the pit.

Split to Double Blackjack

Unlike standard blackjack, there is no hitting. Instead, players have the option to split, double down, stand or surrender.

Galaxy will also exhibit the Galaxy Operating System, a next-generation system that allows for progressives and analytics and the tracking of bets on roulette and craps. The system is currently live in the UK, with Carnival Cruises and in Las Vegas.

The company's booth will be the same size as prior years but will have a brand new look and feel.

Must-See Products

1. ***Split to Double Blackjack***
2. ***3 Dice Baccarat***
3. ***Galaxy Operating System***

3 Dice Baccarat

Gaming Arts® *Booth #1853*

Gaming Arts will have its largest booth in company history as it showcases 25 new titles this year.

This comes after the company launched 28 new titles since the beginning of the year and expects to have 65 titles by year-end.

While the booth will have a heavy focus on slots, it will still have Keno and bingo and will also feature its historical horse racing games with the company having refined and doubled its efforts in the segment and offering a much larger product by year-end. Additionally, Gaming Arts will have a product in the HHR segment that it believes no one else has, CEO Mike Dreitzer said.

BRIAN CHRISTOPHER'S POP'N PAYS MORE!

KUNG FU EMPRESS

For slots, the Brian Christopher game Brian Christopher Pop'N Pays More! will be on display with influencer Brian Christopher himself being present at the show.

The slot has performed well in the EILERS-FANTINI Game Performance database between two and four times house average. It is specifically doing well in Las Vegas, Arizona and Minnesota.

Kung Fu Empress offers what the company said is amazing graphics and pleasing visuals, designed to easily catch the eye.

Casino Wizard VIP, Gaming Arts' electronic table game, offers eight games in one cabinet on the VertX Grand, including four classic titles with poker derivatives. The product debuted in September at Sycuan Casino in California.

As for the show itself, Gaming Arts expects great attendance and more of a normal G2E seen before COVID.

All products being showcased at G2E are available for purchase.

CASINO WIZARD VIP

Must-See Products

1. ***Brian Christopher's Pop N' Pays More!***
2. ***Kung Fu Empress***
3. ***Casino Wizard VIP***

At this year's G2E, IGT will once again show that it is committed to its increasing investments in premium products, a theme echoed from last year's show.

In particular, IGT will be heavily investing into multi-level progressives following strong success in the segment this year.

Prosperity Link will highlight IGT's multi-level progressive segment with the base games Dian Shi Cheng Jin and Ri Jin Dou Jin.

Among Core Video, IGT will have more than 40 unique games at its booth with exciting evolutions of legacy games including another version of Lucky Larry Lobster Mania and Rich Girl, which was initially released nearly 20 years ago.

A highlight for Core Video will be Fortune Owl on the PeakDual 27 cabinet, which will be out to market in the first quarter.

Core Mechanical Reel games will be highlighted on the DiamondRS cabinet, which launched in July to strong performance, the company said.

Booth #3659

The cabinet currently offers 16 titles including Pinball Double Gold, Red Hot Tamales! Pinata Bash and Double Top Dollar.

For systems, IGT will showcase the IntelligenEVO, the next generation VLT system. Benefits include new architecture, a new database setup that provides access to significantly more game data and new user interfaces.

FORTUNE OWL ON PEAKDUAL 27

IGT will also exhibit the Haywire Poker Tournament video poker product with Power Deals technology. This deals 2 to 16 hands in the background, with the best of those hands being presented to the player as their initial hand. Haywire Poker Tournament is set to launch in November.

For cashless, IGT will showcase the Resort Wallet and IGTPay, the fully integrated cashless solution with external funding that is live at casinos in Las Vegas and Oklahoma, with additional deployments on the horizon.

Finally, IGT will showcase the first hybrid baccarat product of electronic table games, which allows players to play live and random-number generated games.

DIAMONDRS

incredible
TECHNOLOGIES®

Incredible Technologies will bring back the “Make Your Move” theme to G2E this year, the same theme as last year, as the company is now finding its footing with the Prism VXP cabinet that has a stand-apart feature of moving hardware components.

The cabinet Incredible now offers a full flex of content. A centerpiece of its G2E showcase will be the Prism VXP Elite Package, which has more integrated game features on the monitors and more game content.

ULTRA RUSH GOLD

Booth #4047

**DRAGON RUSH ON
PRISM VXP**

Dragon Rush is the first game family designed for the cabinet with its own product pipeline coming next summer. There will be all new content designed specifically for the Elite Package.

Incredible will also showcase Ultra Rush Gold Bingwen and Wēi Yí on the Prism VXP cabinet which is the next generation of the Ultra Rush brand. The games feature a bonus that triggers the cabinet to extend upward to make space for additional rows of grids that go towards a towering bonus.

Incredible is also bringing electronic table games with its Grand Crystal 2 that will feature roulette and craps, and what Incredible calls "something to the industry that has never been done before."

Incredible is currently live in four casinos with class III electronic table games.

For the first time ever, Incredible will have its first historical horse racing games at the booth, moving its most successful Class III games to historical horse racing markets.

The booth will be in the same spot this year but will be slightly larger to accommodate more products and the new segments. Additional attendance is expected this year compared to last with Incredible anticipating more international customers, specifically from France.

Must-See Products

1. ***Dragon Rush on Prism VXP***
2. ***Ultra Rush Gold on Prism VXP***
3. ***Grand Crystal 2 ETG cabinet***

**ELECTRONIC ROULETTE ON
GRAND CRYSTAL 2**

INSPIRED

"There is a lot to be excited about with our upcoming portfolio of content and solutions in iGaming, iLottery and Virtual Sports," Inspired said ahead of G2E.

Inspired recently signed a multi-year contract with the Major League Baseball Players Alumni Association for the worldwide commercial use of the names, brands, images, personas and likenesses of MLBPA members and other legendary players such as Babe Ruth, Cecil Fielder and Mickey Mantle.

As such, Inspired will offer virtual sports games where players can watch some of these legends step up to bat against each other in the Home Run Shootout Legends game, both online and retail. These games combine award-winning visual effects with the latest in motion capture technology, and they really bring the MLBPA greats to life, the company said.

Inspired has developed what it calls the latest must-have, must-play, innovative free Spin bonus mechanics for its gaming and iGaming games: Big Bonus and Big Spin Bonus.

Booth #4130

BIG BONUS AND BIG SPIN BONUS

The Big Bonus mechanic, now offered in many of Inspired's retail and iGaming games, was released in August 2020 and quickly earned loyal, active players, the company said. Big Bonus awards unlimited Free Spins until the player wins the trigger amount in a single spin. The trigger amount is determined at the start of the bonus feature with a pick me feature. To trigger the Big Bonus feature, three scatter symbols or more must be in view. Once the bonus is activated, all bonus symbols will transform into a Big Bonus Win Value, which can be 20x, 25x, 30x, or 50x. Once the Big Bonus win value has been selected, the player will be awarded with unlimited Free Spins with sticky wilds on reels 2 – 6. The aim of the bonus is to keep spinning and collecting wins until the Big Bonus win value or more is achieved in a single spin.

The Big Spin Bonus mechanic uses a format similar to Big Bonus — released in June 2021, it quickly became Inspired's highest-performing iGaming feature. Entry into the bonus is the same as Big Bonus, but instead of selecting a Big Bonus Win value, the player must select a number of Big Spins to play with (between 1 and 5 Big Spins can be awarded). A Big Spin is a spin that awards a win of 20x stake or more. The aim of the bonus is to keep spinning and collecting wins until the player reaches the chosen number of Big Spins.

Inspired calls these mechanics game changers. Due to player demand, they took a more dominant place on Inspired's retail and iGaming product roadmaps in 2022 and new content leveraging these mechanics will be showcased at G2E.

V-PLAY HOME RUN SHOOTOUT

Must-See Products

1. ***Big Spin Bonus***
2. ***Home Run Shootout***
3. ***Big Bonus***

Booth #1239

The theme for Interblock's G2E is "Table Games Designed for the Future."

Interblock will introduce over 30 new products, features, functionalities at G2E which showcases the focus the company placed on investing in research and developing advanced technologies throughout the course of the pandemic.

G2E will mark the first time Interblock is able to showcase much of this advancement, and as a result, said it will have more groundbreaking products than ever before with upgrades to virtually all of its products on casino floors to help increase both handle and hold percentage. This comes alongside a continued evolution in methods to help reduce operating expenses for casinos. "Our ultimate goal was, and will continue to be, to appeal to and meet the demands of all demographics to draw players to casinos," the company said.

Must-see products include Pick 2 Win Craps. Interblock's Pick 2 Win Craps elevates the gaming experience as the designated shooter selects which two out of three, color distinctive dice generators will produce the result.

The role of the shooter is assigned after every "7 out" occurrence and the player remains the shooter until the next "7 out." The optional shutter, covering the shaking dice, rouses energy and excitement, the company said. Pick 2 Win Craps is available as a standalone product and as an addition to Interblock Stadiums and Pulse Arenas.

Bonus Wheel Roulette

Next, is Bonus Wheel Roulette. Interblock's Bonus Wheel Roulette is a new product that incorporates the thrill of playing traditional Roulette with the opportunity for players to win payouts up to 250 to 1 with its dual wheel bonus system. When players wager on any of the four bonus gems and the ball lands in the selected bonus gem pocket on the main wheel, a secondary bonus wheel will spin to determine the amount of the bonus payout rewarded to players with multipliers up to 250 to 1.

The bonus round occurs approximately 1 in every 10 spins and pays out more than 7x higher than that of a traditional Roulette wheel, which Interblock says creates a new level of excitement for roulette players.

PICK TO WIN CRAPS

Lasty, Live Dual Roulette ETG Pit. In a proactive effort to increase the number of games played, reduce labor costs and payout errors, accumulate supplemental revenue, and enhance security on existing Live Pits, Interblock provides the LIVE ETG PITS! Live ETG Pits feature a variety of games - Blackjack, Roulette, and Baccarat, available in multiple variations, including LIVE DUAL ROULETTE.

Interblock's Live Dual Roulette ETG Pit is manually spun by a single Live Dealer, alternating from one wheel to the other, with guided messages on the Croupier Interface. The overlapping game times increases the number of player results up to 120 per hour, which Interblock says can nearly double revenue.

LIVE DUAL ROULETTE ETG PIT

KONAMI

Celebration. Team. Spirit. High Reward.

This is the slogan with which Konami enters G2E, showcasing the SYNKROS casino system solutions, and new gaming content that is focused on creating more winning moments in the wake of what it calls a successful showcase last year.

Konami will demo premium games, core for-sale slot content, historical horse racing machines, and Class II as well as further updates to SYNKROS systems' technology.

For games, Konami will continue to expand on its Dimension line and marque product Lucky Drums on the Dimension 49J cabinet. Also on this cabinet will be additional base game titles for its All Aboard and Ocean Spin game series. New game series will also be showcased at G2E including America's Rich Life, BattleBots and Bull Blitz.

America's Rich Life is a premium slot that has patriotic themes and wheel-spins. It features licensed song Living in America by James Brown.

**AMERICA'S RICH LIFE
ON DIMENSION 49J**

Konami points out that the Dimension 49J consistently ranks among the industry's top premium-leased cabinets.

On the Dimension 49 cabinet, which is a portrait cabinet that is a more streamlined cost option for operators with a lot of the same key elements as the Dimension 49J curve, Konami is highlighting Lucky Drums. This new multi-level progressive slot series comes with a wide range of multi-denomination options. Games in the series include Lucky Drums Lion and Lucky Drums Dragon.

This new multi-level progressive slot series comes with a wide range of multi-denomination options. Games in the series include Lucky Drums Lion and Lucky Drums Dragon.

For historical horse racing, Konami is showcasing its classic titles as well as some new content at G2E. The games are offered on Dimension 49J, Dimension 49 and Dimension 27. Titles include All Aboard, Dynamite Dash, Piggy Pennies and more.

**LUCKY DRUMS
ON DIMENSION 49**

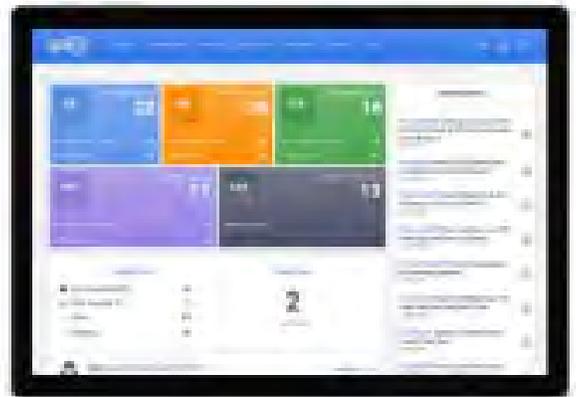

There is record momentum for Konami's SYNKROS system, the company said, and the latest technology on display at G2E will be an all-in-one Title 31 and AML system SYNK31.

SYNK 31 is comprehensive for Title 31 anti-money laundering that allows SYNKROS to gather, track, review and complete all AML requirements and provides near real-time results and case management for particular patrons or incidents.

Konami's booth will be significantly bigger than last year as it brings more games and additional categories including HHR, Class II and VLTS.

It is also thrilling to have international visitation back to the booth as well, the company said.

LIGHT & WONDER™

Light & Wonder will have its first showcase at G2E under its new name and with a new vision that highlights a broader focus on cross-platform products.

This will include not just land-based and online casino products, but also crossing the bridge from electronic table games to physical tables, free-play and social gaming to real money.

All lines of the business will be showcased at the booth, including an area that will be dedicated specifically to cross-platform products.

Light & Wonder will unveil new content that includes updates of its most popular game franchises, hardware, electronic table games, systems and technology, with the majority of products at the booth to be available within the next six months.

Light & Wonder
PREMIUM
LIVE DEALER
BY AuthenticGaming

Booth#1116

Light & Wonder will also launch its LIVE DEALER product by Authentic Gaming which it calls a complete, premium live gaming experience.

An example of the cross-platform product will be what it describes as a key game called Roulette X, which allows players to choose their own volatility up to 500 times on an electronic table game platform.

JIN JI BAO XI ON KASCADA

The Cascada Dual Screen will be on display with the Dragon Unleashed game, which will be available on the cabinet by year-end. The cabinet itself is currently for sale.

The Landmark 7000 mechanical reel will also be showcased with Frank Sinatra and Johnny Cash games. This cabinet will be launched right before G2E.

**JOHNNY CASH THE MAN IN BLACK ON
LANDMARK 3000**

In terms of online casino, Light & Wonder will have a Roulette X live dealer game and will also soon have a random number generated version of the game.

Jackpot Festival, the first online wide-area progressive in the US, will also be showcased. The game is the perfect combination from a product and content point of view and should be launched in the fourth quarter, Light & Wonder said.

Light & Wonder is another supplier that expects G2E's attendance to be strong with the return of international customers and employees, though not at 2019 levels.

Novomatic will bring a substantial variety of entertaining premium and core games, systems, progressive jackpot products, sports betting and more to this year's G2E.

As always, Novomatic will feature a theme at the booth with various branding and characters on the floor with this year being Candelas de los Muertos, one of its premium slot games.

The biggest new product for Novomatic will be the launch of new upright cabinet series DIAMOND X 1.55J curved screen and DIAMOND C 2.32 dual screen. Nearly every game at the booth will be on the cabinets.

The cabinets' features include a visually enclosed framework for crisp presentation of game content, silhouette LED lighting that synchs with game-play and an integrate topper to cater to enhanced progressive support and strong visibility on slot floors.

The THUNDER CASH X Link on Diamond X is Novomatic's latest in the progressive segment with what it says is an exciting set of titles including THUNDER CASH and MONEY PARTY.

SEÑORITA SUERTE ON
DIAMOND X 1.55J**

Other games on the DIAMOND X cabinets will include Lady Victoria, Amazon Diamond, Money Party, and Yummy Yummy, which is currently trending upward on casino floors as a high-limit theme.

ULTRA BOOST will also be prominently displayed with a 360 degree LED ring. The game family, which features the Grand Eagle, Great American Buffalo and Tiger Storm games, was initially showcased at last year's G2E.

Outside of slots, Novomatic will also showcase sports betting self-service kiosks including the ActionBook Compact table-top and ActionBook Plus multi-screen.

Both terminals offer quick response times with a user-friendly, touch monitor experience.

In terms of systems, the Novomatic Biometric System will be on display including retinal scans, controlled access to gaming floors, responsible gaming and virtual tickets.

Novomatic continues to expand in distributed gaming and will have new VLT content to showcase.

Overall, the booth will be the same size as last year with the same amount of games. Like many others, Novomatic will have an international presence this year given the easing of COVID restrictions.
