

ZITRO WILL SHOWCASE ITS LATEST INNOVATIONS AT ICE LONDON 2023

Zitro will exhibit its range of products at the upcoming ICE London, to be held at ExCeL from February 7-9, 2023. At booth #N3-550, the company will showcase exciting new content designed to enhance player engagement and maximize operators' profits. With a philosophy of providing exceptional products and the most reliable service and technology, Zitro will unveil a portfolio of ground-breaking games that are the result of the hard work and commitment of its team and leadership. Zitro's reliability, first-class support and constant drive for innovation have been the key to the company's success, because Winning is not about luck!

Zitro promises a series of exciting surprises and innovations that will demonstrate how operators can benefit from brilliant ideas and increase profitability through state-of-the-art gaming products. Among the novelties, Zitro will showcase a collection of brand-new games and proven performers featured on the 4 different GLARE form-factors.

Sebastian Salat, International President of Zitro: "This year's edition will be a wonderful opportunity to meet once again at the ICE Show with European customers and show them all the greatest games we have developed for the market. Zitro is excited to be part of one of the biggest industry events during a period of rapid recovery in the European markets. Over the past year we have focused on creating innovative products that we are confident will continue to exceed customer and player expectations".
