

FOR IMMEDIATE RELEASE

AGS to Showcase Diverse, High-Performing New Products at NIGA 2017

The Company Continues to “Play Harder, Play Smarter”

LAS VEGAS, March 29, 2017 – In booth #1144 at the National Indian Gaming Association’s (“NIGA”) 2017 Indian Gaming Tradeshow and Convention, [AGS](#) (“Company”) will invite Tribal Gaming leaders across the country to experience how it’s continued to play harder and play smarter to deliver inventive new products, on and off the casino floor, that drive performance for Tribal Gaming operators. During NIGA, the Company will showcase its award-winning products [Orion](#) and [Bonus Spin™](#), along with its newest table game title *Dai Bacc*®, and will also unveil its latest interactive solution, [SocialWLC™](#) (*Social White-Label Casino*).

“After a record 2016, AGS heads into NIGA poised to deliver on our commitment to, and leadership position in, the Tribal Gaming market,” said David Lopez, President and CEO of AGS. “NIGA continues to be one of AGS’ most important tradeshow events, and it’s critical we continuously provide our Tribal partners innovations that drive performance across the casino floor. Between our ground-breaking new premium cabinet, our state-of-the-art progressive table game technology, and our new customizable B2B social casino offerings, I’m confident we will exceed customers’ expectations again this year.”

Headlining the Company’s slot products segment, *Orion* takes premium cabinet design to a new universe of performance, flexibility, and style. From its 42” LCD HD touchscreen portrait monitor to the stunning full-color LED lights that encircle it, *Orion* is fueled by a dynamic library of high-performing game content including *Fu Nan Fu Nu™*, *River Dragons*®, and *Fire Wolf II*®. Also on display will be the Company’s core cabinet, *ICON™*, showcasing an assortment of new games including three new high-limit titles developed by the creators of *Colossal Diamonds*® on *Big Red™ – Premier Diamonds™*, *French Quarter 7’s*®, and *Super 10X Wild Gambler*®.

Within its table products segment, AGS will showcase its newest baccarat offering, *Dai Bacc*, which features three bonus bets with the possibility to hit at least 30-1 odds on every round. The game’s distinctive bonus bets offer a very high payout potential with the introduction of *The Kill Bet™*, which means players have an added advantage of winning even if the other two side bets lose. AGS will also demonstrate its single-deck card shuffler, *Dex S™*, designed for poker tables and hand-pitched or hand-dealt table games, as well as its exclusive *Bonus Spin* brand table game progressive technology and how it

easily connects to blackjack, *Chase the Flush™*, and *Dai Bacc*, as well as any other table game. *Bonus Spin* distinguishes AGS table games from others through a side-bet that offers players the chance to spin a virtual wheel for additional prizes.

Finally, leading the interactive segment, AGS will debut its new social casino product designed for gaming operators, *Social/WLC*. This solution is a turn-key, free-to-play mobile app platform that blends a casino's brand with AGS' player-favorite games into an interactive casino experience players can take anywhere.

Experience these new products and more when you "Play harder, Play smarter, Play AGS" at NIGA booth #1144 or www.playags.com.
