Ainsworth Game Technology to Continue Momentum at the Global Gaming Expo 2016

Show marks The Americas debut of new cabinets, themes and social gaming content; Nearly 140 games on display

LAS VEGAS (September 14, 2016) – Ainsworth Game Technology will showcase several innovative new cabinets and nearly 140 games at the Global Gaming Expo (G2E) 2016 from Sept. 27-29 at the Sands Expo in Las Vegas.

“G2E 2016 will be a great opportunity for us to showcase the tremendous growth we have experienced over the past year,” said Ainsworth Chief Executive Officer Danny Gladstone. “We are introducing exciting innovations like our new A600® and A640® cabinets. These products continue the momentum we have from opening our brand-new 291,000-square-foot North American headquarters in Las Vegas, new facilities for the Latin America division, and beginning to offer our Class II gaming products following the successful acquisition of Nova Technologies.”

A600® Continues Ainsworth Legacy

Ainsworth recently introduced its new A600® cabinet line, incorporating the company’s deep and long-standing knowledge into an exciting new product for its casino partners.

The A600® takes existing Ainsworth technology to the next level with larger game screens, dynamic lighting effects and a state-of-the-art LCD touchscreen button deck. At G2E more than 50 titles will be shown on the A600® or A600® Slant Top, further demonstrating the company’s commitment to a long-term pipeline of successful content.

“We believe the A600® can be a game changer,” said Ainsworth President – North America Mike Dreitzer. “The early feedback from customers has been tremendous and the new game content can truly take Ainsworth to the next level. Our game library has grown to more than 200 unique titles and with upgraded hardware capabilities we can offer customers entirely new possibilities for their casino floors.”

While being focused on supreme engineering and best-in-class reliability, the A600® includes the high-end graphics, high-resolution screens, and interactive button decks that are expected by today’s casino operators and slots players.

Two 24-inch screen and game-driven lighting effects enable players to experience Ainsworth’s world-renown games in an entirely new way on the A600®. Seven unique sign packages are available with the

A600® on leading games including the Cash Odyssey series, which features a linked progressive jackpot on three new games – Huckleberry Finn, Gulliver’s Travels, and Robinson Crusoe.

Worldwide Debut of A640®

The A640® will highlight Ainsworth’s 6,480-square-foot booth #2059. The A640® will be displayed with a variety of licensed content including King Kong, King Kong Skull Island, The Magnificent Seven Reloaded, and Three Amigos Ride Again.

The stunning A640® features optimal viewing on 40-inch high-definition LCD game screen and an attractive design creating powerful game experiences with eye-catching game art. The cabinet comes standard with a touchscreen LCD button deck with a mechanical “bash button” to combine the ease of new technology with the excitement of traditional slot play.

Plus, an optional 27-inch LCD topper will attract players across busy casino floors.

Hot Content for the A560®SL

Ainsworth’s most popular cabinet – the A560®SL – continues to evolve. More than 40 titles will be shown at G2E on this proven casino favorite.

Operators will see new game series that expand upon Ainsworth’s successful Sweet Zone themes, such as the new Sweet Zone Xtreme game series, which features improved graphics, massive reel strips in bonus features and even more Sweet Zone features that keep players excited with every spin.

Sweet Zone Xtreme debuts with two hot games – Rumble Thunder and Toro Treasures.

Additionally, the new Fortune Series will be on display alongside new titles for established themes including Gold Awards, Double Sweet Zone and Quad Shot.

Class II Library Expanding

In the eight months since Ainsworth completed the acquisition of Nova Technologies, the company has seen rapid growth in Class II Tribal markets. Titles that were proven winners in Class III are now available in Class II on four unique cabinets – the A560®, A560® Wideboy, Atlas 100 and A560® SL.

Many of Ainsworth’s player favorites will be displayed on Class II cabinets at the show, including Rumble Rumble and Flying Horse on the A560®SL. Those two titles have been among Ainsworth’s top performers over the past two years.

The company’s library of Class II titles currently stands at about 45, with plans to develop an additional 35 in the next 12 months.

“Tribal casino operators have reported strong performance for our initial entry into Class II markets,” said Ainsworth Director of Class II Operations and Business Development Russell Witt. “Tribes have the sovereign right to operate Class II Gaming Systems and we are committed to developing best in class content and products to help ensure long-term prosperity and growth in this very important gaming segment.”

News Facilities and Product geared for Latin-America

Ainsworth Latin America division increased its presence with the recent construction of new commercial offices and distribution center, thus enhancing its activities in Latin America. The recent acquisition joins a comprehensive plan that aims to support and diversifying the business models for all the existing locations in Argentina and Peru, Mexico and Colombia.

The latest product range for the Latin American market is set to expand showcasing several exciting, new titles including a new line of Multi Win games. Multi Win™ 12, 13, 14 and Multi Win 15™ presented in the exciting A600® Slant Top cabinet. The additional Multi Win games are a compilation of the best Ainsworth brands and titles, presented in unique grouping of games that provide casino operators the opportunity to maximize their product offering within a smaller footprint.

AGT will also showcase Piñata Pays™, presented in the A600® Upright cabinet, which offers an attractive, interconnected three Level Progressive Jackpot, three levels of additional bonus features, and frequent awards that keep the public connected. Furthermore a new line of games with titles such as Dream Strike will be displayed with four Levels of Link Progressive Jackpot, striking 4 levels of Bonus Prizes and exciting free games features that complement the wide variety of products developed for the region.
