

With globally recognized quality products, Casino Technology once again proves its innovative thinking presenting its unique, one-of-a-kind, true immersive slot machine ARCH™. ARCH™ was released just recently for sale in North and South America after its successful launch in Europe. The luxurious ARCH™ slot machine with its unique 42" horizontally curved HD monitor proved amazing results, already with multiple installations in Europe, providing a true immersive feel to the players and multiples to the bottom line for the operators.

This year ARCH™ is coupled with few video slot multigame titles, all of them certified and ready for installation – GAMOPOLIS ARCH™, a multigame with 20 and 40 unique video slot titles, 8 PEACOCKS™ progressive link with 5 unique Asian themed titles, and the HOT ROD™ premium branded slot machine. Amongst the new attractive games, forming the GAMOPOLIS ARCH™ multigame collection, are Mystic Moon, Cash Robot, Alaska Wild, Duck Spell, Briliants of Fire and many more. With its true high definition, 42" curved gaming customized display, ARCH™ offers perfect viewing angle with crisp and clear image that reinforces the perfection in the graphics. For its innovation and uniqueness, ARCH™ was nominated for Land Based Gaming Innovation category on this year Global Gaming Awards in Las Vegas.

The company had licensed its unique technology for North America and presents its product portfolio together with its USA licensee and counterpart Alto Gaming (Alternative Gaming Solutions, Inc.)

Alto Gaming keeps speeding ahead as well with innovation and alternative approach to gaming with the spectacular HOT ROD™ slot machine. Their unique creative take to the slot machine of the new generation provided a brilliant modular concept that couples

the slot machine ARCH™ with a themed HOT ROD™ designed housing and chair, thus providing a real feel for the fans. It combines powerful mix of excellent ergonomic and gaming features matching the excitement and passion of rodding. HOT ROD™ brand is perfectly accompanied with unique game design characteristics, offering a 50-line game with multiple interactive bonuses, driven by the exclusive ARCH™ cabinet. As the passion for hot rodding brings together people of all generations, Alto Gaming has the opportunity to satisfy the taste of both Millennials and their parents. The product is lined up for multiple installations this coming year and is certified for North America as well as for multiple international jurisdictions.

Another well recognized and renowned product presented with its new fully tested and certified line of multigame sets is GAMOPOLIS™. The latest release from the popular series, SPEEDWAY™ provides 4 new versions, starting from 70 to 73, with 40 games in each set. New player interface, enhanced game play wed with the proved math models and variety volatility ranges are amongst the new features of the GAMOPOLIS™ SPEEDWAY multigame series. Vast game options, like pick-up bonuses, super games, novelty side bets, cascading reels, the favorite fruit games, hot sevens and bars, makes GAMOPOLIS™ SPEEDWAY the preferred choice for both high performance and diversity on the gaming floor.

GAMOPOLIS™ SPEEDWAY is offered in the stylish AURORA™ upright cabinet and TANGRA™ slant top cabinet, combining sophisticated design, high technological features and best player comfort.

Specially designed for North America, Alto Gaming will showcase a series of proprietary single Class III slot games amongst which WILD SUNRISE™, JUNGLE FORTUNE™ and MAGIC PEARL™ certified and available for a number of jurisdictions.

Through the extended reach of the online and social channels the games of both companies are gaining popularity amongst social gaming players on Facebook and various other platforms. During G2E will be displayed the rich portfolio of more than 100 unique video slots available both in HTML5 and Flash technology on the ELEPHANT™ remote game server. The mobile version provides extremely smooth game play and great graphics quality for more entertainment and longer time in play.

ELEPHANT™ is an integral part of the revolutionary BIG 5™ suite of systems that links seamlessly online to land based operation and provides common tools for operation and management. During the last year BIG 5™ have been installed in several

operations internationally in its full functionality, showcasing the seamless omni channel gaming experience from land based to online environment. Casino Technology was amongst the very few companies that released for a first time a complete seamless solution that connects the virtual casino environment with the brick and mortar operation with a common set of systems and provides a common players e-wallet and loyalty program.

All this and many more at booth #2046 at G2E, Las Vegas!
