Subject: G2E 2016 review
Publishing: For immediate release

EGT HAD ITS MOST SUCCESSFUL G2E SHOW IN VEGAS

The international team of Euro Games Technology welcomed guests from all over the world during G2E 2016 in Vegas and showed them around the company's booth, presenting an innovative product lineup of slot machines, multigame mixes, multiplayer solutions, interactive games and casino management systems. The received feedback was more than positive.

"In my over 20 years of presenting at the exhibition, I have never seen that many compliments, praise and interest in the different products we displayed," shared Sean Smith, president and founder of Reel Games Inc., the partner of EGT for North America. "Our new slot games, jackpot systems and cabinet models were a hit. The Luxury series touch tables and the Spider casino management system were a good draw to stop customers in their tracks as well. Not only did we have excitement from our existing customers. We have now added a high level of interest from almost all states and tribes and all the Canadian provinces. During every presentation I received congratulations on the showcased products. Many customers even came back two or three times during the show to look at them again. Amazing!"

The products that focused the keenest attention of the audience were among the newest developments of the company – the jackpot systems 3 Happy Hits, 4 Happy Hits and Fu Gui Rong Hua, the Super Premier and the Curved cabinets, the multigame mixes of Collection series – Fruits, Red, Green and Orange, the Lucky Circle Cash touch table of Luxury series and the Spider casino management system. EGT Interactive gathered a lot of guests mainly from Latin America.

At G2E 2016 the company celebrated not only the highest number of visitors and shown interest in its products, but its recent growth in Central and South America as well. The Bulgarian manufacturer has opened new offices in Peru and Colombia (it forecasts to achieve the installation of 1,500 gaming stations in the country till the end of 2017). EGT is also establishing a new sales and service centre in Panama that will provide the spare parts for all the Americas, including the Caribbean, optimizing the technical support by 30% and assisting its neighbouring offices as well.

In respect of sales the company is looking forward to its installations in Mexico and Colombia, as well as in the Caribbean, where it is already a major gaming supplier, especially in the well-developed markets of St. Maarten, Curacao, the Dominican Republic, Aruba, Jamaica and Suriname. Among the most successful products of

The logo for EGT (Euro Games Technology) features the letters "EGT" in a bold, red, sans-serif font. To the right of the text is a red graphic element consisting of a curved line that starts below the "E", goes up and over the "G", and then curves down and to the right, ending in a small circle. The background of the top of the page is a light gray with a fine grid pattern, and a large, smooth, red-to-white gradient wave shape spans across the top.

EGT in the Americas are the P-24/24 Up, P-27/27 St Slim and P-27/32H St slot cabinets, as well as the jackpot system Egypt Quest. The company has also made several installations of its Cat 4 Cash jackpot in the region and is looking forward to its first Curved cabinets (P-42V Up and P-42V St) and Luxury series touch roulette table deliveries in the Caribbean.

"This year's G2E show is definitely a step further for us and is the most successful exhibition we have ever had in Vegas," concluded about the event Mr. Stanislav Stanev, sales & marketing director of EGT. "It will certainly boost our development into the U.S. and Central and South America. We also enjoyed meeting with our visitors and felt proud of their high acclaim for our show display."
