

HABANERO READY TO ROCK ICE 2017

Slots developer returns to London ahead of further expansion

31st January 2017 - Quality slots and table games provider Habanero is all set to showcase its impressive portfolio of high-definition HTML5 games at next week's ICE Totally Gaming.

The supplier returns to the show for a second time with an even bigger and better stand, as well as a full suite of video slots and table games that include their 2016 blockbuster titles Juggernaut, Fenghuang, and its latest January release, Fire Rooster.

Also on display will be selection of games due to go live later in the year, such as the beautifully serene Koi Gate (due out in February), Bird of Thunder, Dead Escape, and Scruffy Scallywags.

Habanero, which is currently certifying its games for European audiences, already boasts a number of commercially successful slots, such as Ruffled Up, Bombs Away, Fa Cai Shen, and 12 Zodiacs.

Head of Sales Daniel Long is now looking forward to demonstrating even more of the company's mobile-centric content to both operators and fellow suppliers.

"We have built a reputation for designing and developing some of the most engaging and immersive games in the industry, and believe we have a lot to offer operators in many different markets.

“We have gone to great lengths over recent months to make sure our games all meet the highest regulatory requirements, and look forward to showing the scale and scope of our portfolio to delegates at ICE.”

Habanero returns to ICE for the second time following a successful debut last year. Over the past 12 months they have also exhibited at G2E Macau and EiG in Berlin.

The interface for each of Habanero’s games is very easy to use and the rotation from landscape to portrait works perfectly, even on the smallest device, and always utilises the full real estate of the screen.

Their robust capability and use of the latest mobile technology is now attracting the attention of operators around the world and ensured that the turnover now generated by mobile devices is well above the industry norm.

Habanero’s entire games portfolio of over 70 slots titles, six table games, and 10 video poker titles, will be certified during 2017.

Daniel Long will be on site in London, alongside the rest of Habanero’s senior team, to talk delegates through their very innovative offering. You can contact him in advance at daniel@habanerosystems.com to arrange a meeting.

And, if you’ve not done so already, you can also try out Habanero’s games ahead of the show at their demo site: haba88.com

About Habanero

[Habanero](#) is a supplier of quality slots and table games for the online and land-based casino industries. Hosted on Habanero's own platform and made available at a lower rate than many of their competitors, these games are tailored to the widest possible variety of devices, allowing operators in multiple territories to maximise their incomes. Purchased by a group of European investors in 2012, the company now boasts a host of skilled designers, developers and mathematicians. Its management team has over four decades' worth of experience in betting and gaming. For more information, please contact info@habanerosystems.com or Head of Sales, Daniel Long, on daniel@habanerosystems.com
