

## BMM Testlabs 'the Original' exhibiting at ICE 2019

BMM Testlabs, the world's best gaming laboratory and technical consultancy is pleased to announce our participation at ICE 2019 in London.

Martin Storm, President and CEO,  
BMM Testlabs

Martin Storm, President and CEO of BMM Testlabs commented, "ICE 2019 will be an occasion to celebrate BMM's exceptional growth around the world over the last 12 months. Specifically, we have seen substantial expansion in our core certification business across all key markets (USA, Australia, Asia, Europe, South America and Africa), achieved significant growth in our specialized QA business in Canada, re-launched our iGaming business in Europe, opened a new lab in Romania as well as a branch office in Poland, and launched a new world-class cyber defense offering."

Storm added, "BMM continues to develop our capabilities as gaming technologies evolve. As an ISTQB Platinum Partner, BMM engineers around the world are qualified to the highest standards, enabling us to fully align our testing capabilities to meet the needs of modern-day gaming."

Gene Chayevsky, Executive Vice President, Europe & South America elaborated, "2018 was especially important for our European business. We moved our European headquarters to our Barcelona office, expanded our regional executive and management team, expanded our market presence with new licenses, and launched three new businesses - iGaming, Romania, and cyber defense."

Gene Chayevsky, Executive Vice  
President, Europe and South  
America, BMM Testlabs

Chayevsky continued, "It speaks to our quality, speed to market and cost efficiencies that we achieved a dominant market position in the Italian VLT market with an estimated 75%+ market share and, after launching commercial operations in Romania in June 2018, BMM was named as the Best Lab in Romania in 2018 by Casino Life and Business Magazine."

Storm in closing, "In today's market, innovation, excellence, velocity and value aren't options in testing, they are required. BMM is laser-focused on bringing these attributes to every client, every day."

Meet BMM experts to discuss your testing and certification needs at ICE London 2019 booth N3-420.
