

AGS DEMONSTRATES ITS OBSESSION WITH TRIBAL GAMING AT THE NIGA INDIAN GAMING TRADE SHOW APRIL 3-4; NEW *ORION* *UPRIGHT* CABINET MAKES NIGA DEBUT

Company's passion for the game takes center stage as AGS displays full lineup of new slot and table games, and online social and real-money games

LAS VEGAS – March 26, 2019 – AGS (NYSE: AGS) (or the “Company”) today announced that it will be exhibiting at NIGA’s Indian Gaming Trade Show April 3-4 in San Diego, with a spotlight on the Company’s newest core slot cabinet – the *Orion Upright*SM – along with a host of new slot titles, table products, and online social and real-money gaming solutions.

AGS will be live in Booth No. 1651 at the San Diego Convention Center. Taking center stage will be AGS’ new *Orion Upright*, a core cabinet with many of the same features as the Company’s award-winning *Orion Portrait*SM and *Orion Slant*SM platforms, including the distinctive starwall design featuring 420 game-synchronized full-color LED lights to celebrate gameplay. The *Orion Upright* is launching with a library of exclusive new titles and greatest hits from AGS’ *ICON*TM cabinet.

Debuting for the first time at NIGA, gaming operators will experience AGS’ *Orion Upright* with the new *Fortune Blast*TM family featuring four brand-new titles — *Luck and Luxury*TM, *Imperial Luck*[®], *Goddess Treasures*[®], and *Blazing Luck*TM. This new series offers ways or line-pay evaluation for more winning opportunities, and a symbol-locking feature to keep players on the edge of their seats.

AGS President and Chief Executive Officer David Lopez said, “NIGA is a show we look forward to every year because it gives us a chance to meet with our tribal operator-partners in an intimate setting and highlight our newest and most exciting products that are launching over the year. This year we are very excited about our new *Orion Upright* because it fills a need on many casino floors for a differentiated, attractive, and sophisticated core cabinet with great content.”

The Company will also showcase its hottest new Class II and Class III titles for the *Orion Portrait* platform, including *Crystal Magic*[®], *Hearts and Horns*TM, *Enchanted Pearl*TM, and the popular *Rakin’ Bacon!*TM with its cherubic pig that gets fatter and fatter as the wins add up. Hailing from the Company’s Australia game-development studio, the title *Red Silk*TM showcases a fresh new family on *Orion Portrait* featuring a three-level linked progressive, a wild reel feature, and up to 10 free games. For the *Orion Slant*, AGS will spotlight the *Fa Cai Shu*TM and *Kingdom Ca\$h*[®] families, which offer themed banking, linked progressive jackpots, and a variety of math models for a diverse and exciting gaming experience.

AGS continues to propel its table products business with a host of new proprietary table games and table solutions. NIGA attendees will get to experience *Super Start Hold’em*TM, a poker-style

game whereby the players always start with the better two-card hand than the dealer; the popular *Criss Cross Poker™* with *Bonus Spin™*; *Blackjack Match Progressive™* featuring the popular must-hit-by jackpot level; and *Three Card Blitz*, an exciting new flush-based game featuring player vs. dealer excitement to achieve the highest-scoring hand using up to three suited cards.

AGS will demonstrate its two table-game progressive platforms – *STAX™* and *Bonus Spin* – which just reached a milestone of more than 1,000 units installed across the U.S. with a healthy backlog of orders planned throughout 2019. The award-winning *STAX* has a must-hit-by option that is driving demand and excitement on games like *Super 4®*, *Blackjack Match™*, and *Royal 9™* as players anticipate the chance to win one of the five progressive jackpots. And *Bonus Spin* offers an eye-catching and anticipatory experience with its virtual prize wheel.

From its table equipment lineup, AGS will showcase the *Dex S™* single-deck poker shuffler, featuring a streamlined design that is economical, durable, reliable, and exceptionally functional.

In the Company's Interactive display, AGS will showcase its *ConnexSys™* Social White-Label Casino solution, a turnkey, free-to-play mobile casino app that integrates the casino brand with AGS' proven and player-favorite land-based titles to keep players engaged at home, work, and on-the-go.

And with real-money gaming at the forefront of many tribal gaming operators' agendas, AGS will also be on hand to provide live demonstrations of its *AxSys Games Marketplace™* and large library of titles, featuring AGS top-performing games as well as a host of entertaining games from third-party developers.
