*KX 43*

Reels Up™ is among the linked progressive launch series on Konami's KX 43 machine. Games in the series feature Reels Up arrow symbol across all reels. Whenever the arrow symbols appear across Reels 1 and 2, it causes Reel 3 to expand upward for the chance at various bonus events, depending on the base game. Reel 4 and Reel 5 also expand up if arrow symbols appear on additional consecutive reels. Konami's Reels Up series spans four original base game options: Vegas Rise, Mayan Times, Expanding Egypt, and Hong Kong Lights.

*KX 43*

Vegas Rise is among the debut launch themes of Konami's new Reels Up™ linked progressive. Whenever the arrows land on reels 1 and 2, it causes reel 3 to expand upward for the chance to spin a bonus cash reel filled with instant guaranteed awards. Reel 4 and reel 5 also expand up into independent cash reels when arrows land in each of the preceding reels. All the bonus cash reels contain instant credit prize and jackpot opportunities, including the big supreme. Vegas Rise is multi-denom, integrated linked progressive that compatibly compliments Mayan Times, Expanding Egypt, and Hong Kong Lights in a variety of available bank and pod configurations.

## MAYAN TIMES

KX 43

Mayan Times is another showcase game in Konami's new Reels Up linked progressive series. Rather than bonus cash reels, Mayan Times™ features spinning jackpot wheels as the target outcome of the Reels Up mechanic. Whenever the arrow symbols land on 2 or more consecutive reels, then latter reels expand upward to potentially trigger the wheel-spin jackpot bonus. As players increase their bet amount, greater wheel-spin prizes become available for the player to unlock, including the \$10,000+ linked supreme.

## EXPANDING EGYPT

KX 43

Similar to Mayan Times, Expanding Egypt has a Reels Up mechanic that expands reels 3, 4, and 5 into guaranteed wheel-spin awards spanning credit prize amounts to the big Supreme. During the free game feature, the game's standard 3x5 reel frame expands to 4x5 for increased odds of reaching instant wheel-spin prizes in the Reels Up feature. Expanding Egypt is a multi-denom, 3-level linked progressive.

## HONG KONG LIGHTS

KX 43

Hong Kong Lights™ features yet another delivery mechanic for Konami's new Reels Up series. If players land 2 or more consecutive arrow symbols, then reels 3, 4, and/or 5 will expand up in a burst of fireworks for a chance at the jackpot bonus game. In the bonus game, a series of red envelopes are uncovered,

Fortune Totems is a compatible complement to Abundant Fortunes in the Ba Fang Jin Bao linked progressive series. During the free games, players select which picture symbol they wish to become gold for the duration of the feature. This selected gold symbol appears with nudging stacks and higher payouts. In addition, the gold symbol has an incrementing multiplier that increases each time it lands in a winning combination during the free games.

*KX 43*

Fans of Chili Chili Fire™ can experience the thrill of the mystery Fade Away Feature™ with an all-new jackpot chance in Konami's new Chili Chili Fire Boosted Wins & Wilds symbol-driven linked progressive. When players bet up the button panel at 180, 360, or 540 credits, they activate an array of boosted potential wins and wilds in each spin. By betting in the "boosted" range, all wins are multiplied by 2x, 4x, or 6x. In addition, all neighboring wild symbols become stacked wilds or stacked wild jackpot symbols. When any stacked jackpot symbol appears entirely at the end of a spin, the corresponding jackpot is instantly awarded. Because the Fade Away Feature can randomly eliminate all lower-value card symbols after any spin—leaving only picture symbols, stacked wilds, and stacked jackpot symbols—there is a strong anticipation and reward potential when the Fade Away Feature is triggered.

## 好运来 HAO YUN LAI

### *Concerto Opus*

Hao Yun Lai™ is the first ever game to combine the popularity of both Strike Zone—from games like Star Watch Magma—and the Fade Away Feature—from games like Chili Chili Fire™—together in one. Hao Yun Lai also includes a symbol-driven integrated progressive delivered through a new Pop n' Drop Feature that involves stacked fireworks that hang in the upper area of the screen. Whenever 6 or more wild symbols land on the reels, and new 1x3 reel set appears with only blank spaces and painted lanterns. Markings on the lanterns determine which stacked firecrackers pop and drop instant credit prizes. Three spins are awarded for each reel, resetting back to 3 anytime a non-blank symbol lands. ## TREASURE LOUNGE

### *Concerto Opus*

Treasure Lounge™ is a 4K Ultra HD integrated jackpot game with an entirely new play mechanic that doesn't involve traditional spinning reels. Any columns which are tall enough to reach random credit prizes displayed in the upper part of the screen then claim those rewards. If a bonus reel appears in the upper half of the screen, players win either the Tiki Drop Feature, Tiki Rise Feature, or both combined! In the Tiki Drop feature, additional Tiki symbols are randomly dropped across the reel frame, and in the Tiki Rise Feature, stacks of Tiki symbols nudge to the height of the tallest Tiki for added win potential. Treasure Lounge also includes a multiplier feature, as well as a wheel spin feature filled with credit prizes and four different jackpot levels. Depending on the player's selected bet level, wheel spins are displayed at the highest part of the reel frame, for users to claim any time a Tiki column reaches it.

Konami has also developed SynkConnect Mobile as a robust mobile application to give players all the benefits of touchless authentication. This cardless player tracking convenience empowers players to login to any equipped EGM through the app and enjoy all the tools to view and manage their loyalty account from anywhere.
